

### **Telvent chosen to host the Mundored technological platform, the tourism sector's new reservations system**

Madrid, June 29, 2005 - Telvent (NASDAQ TLVT), the Global RealTime IT Company, has signed a communication services and infrastructure housing contract with MundoSenior, a company that specializes in the sales, management, and client support of travel packages for senior citizens. Under the terms of the contract, Telvent will facilitate managed communications services for this company's new "Mundored" reservations system and will also house MundoSenior's technology platform in Telvent's Alcobendas Data Center, one of five facilities operated by Telvent on the Iberian Peninsula.

The "Mundored" reservations system provides management of reservations and the commercialization of holiday packages, and is based on technology that enables real-time reservation and confirmation transactions, contributing to increased efficiency and enhanced customer satisfaction.

According to Telvent's Chairman, Manuel Sanchez Ortega, "Telvent's technology offers a turnkey solution that is ideally suited to the requirements of MundoSenior, which includes secure facilities, high availability of services and 24x7 technical support."

Telvent currently offers a wide range of information technology systems and services for specific industrial sectors, and is a leading company in Spain, North America and Latin America for real-time mission critical and high added value solutions, with more than 30 years of industry experience. Telvent is leader on the Iberian Peninsula and owns and operates the most extensive network of specialized data centers located in Madrid, Barcelona, Seville and Lisbon, providing neutral housing services, backup center services, BRS and managed services to more than 300 commercial customers.

MundoSenior is the result of the merger of four large Spanish-based travel agencies: Viajes Marsáns, Viajes Iberia, Viajes Barceló and Viajes Halcón. Important to note, this company has been awarded the Holiday Program contract for Senior Citizens, under the IMSERSO program, which is involved with various aspects of vacation planning for senior citizens, as well as the resulting employment and economic benefits associated with tourism.

Telvent (NASDAQ TLVT), the Global RealTime IT Company, specializes in high value-added solutions in four specific industrial sectors (Energy, Traffic, Transport and Environment) in Europe, North America, Latin America and China. ([www.telvent.com](http://www.telvent.com))
